SECTION 1

SIGNIFICANT EVENTS

Case Report 23-0445

On Jan. 25, officers were dispatched to a disturbance with weapons. The dispatcher informed responding officers that a 20-year-old autistic male was armed with a knife and was threatening to harm his family. Officers learned the male was upset and refusing to attend a psychiatric appointment. Additionally, they learned that he had a cognitive thinking level of an eight-year-old child. They were able to get the family safely out of the home, but the male barricaded himself in the basement.

Officers gathered resources and worked collaboratively with each other to develop a plan to help the male. Within a matter of minutes, two crisis negotiators and several officers on scene worked to resolve the situation peacefully. After a short time, the male exited the basement on his own accord, and the officers were able to take him into custody safely. As he exited the basement, crisis negotiators kept the male calm and assured him they were there to help him. The male was placed on a mental health hold and transported to the hospital, but was released a few hours later. The officers continued working with community partners to help the family establish a long-term plan for getting the family and male the help they need.

Case Report 23-0470

On Jan. 26 at about 9:30 p.m., Brighton Police Officers responded to 7-11, located at 3876 E. Bromley Lane, on reports of a driver that crashed their vehicle through the storefront. Brighton Fire Rescue District Medics saw the incident as it occurred while they were fueling their ambulance at the gas station.

Upon arrival, officers found a man standing next to the vehicle. The male was dazed and confused and appeared to be impaired. Once the male was seen by the medics and no injuries were reported, the responding officers used their training to administer Standardized Field Sobriety Tests. The tests help the officers establish probable cause for an arrest for driving under the influence.

During the investigation, officers found the male to be impaired by drugs and alcohol. Officers were also able to locate drug paraphernalia inside the vehicle along with over 1.47 grams of suspected methamphetamine.

The male was taken into custody and booked into the Adams County Detention Facility on charges of DUI, unlawful possession of a controlled substance, careless driving and possession of drug paraphernalia. Luckily, there were no injuries during this incident.
